

Exhibit E – Equipment Co-location Costs

Equipment Co-location Costs for CENIC Co-located Service Providers (CCSP)

The costs listed below may be used as guidelines for service providers. CENIC will determine final costs and will depend on local availability and pricing,

All required space or power requests must be submitted and agreed upon in advance and cannot be used to serve non-CENIC customers.

Annual CCSP Fee. \$5,000.00

Required of all CENIC Co-located Service Providers who are currently, or will be, co-locating equipment within CENIC space.

Relay Rack (Inside CENIC space)

Average costs:

\$500.00 Non-recurring install charge

\$850.00 Monthly recurring costs vary by location

-48V DC Power

Average costs:

\$1,500.00 Non-Recurring Installation

\$ 19.00 per amp per month

AC Power

Not available at all aggregation hub sites. If required, contact CENIC for availability and pricing.

Entrance Fiber (If needed.)

ICB Non-Recurring Installation
